Bermuda Monetary Authority is committed to attracting and developing the best people who are dedicated to providing exceptional service.

BMA
BERMUDA MONETARY AUTHORITY

Software Developer
Management Services Department

Bermuda Monetary Authority is seeking the services of a qualified and experienced individual to work as a Software Developer within the Management Services Department. The successful candidate will be responsible for taking an agile approach to building and supporting enterprise grade software systems on top of the Microsoft .NET development stack. The Software Developer is involved in all areas of application development (design, development, testing and production). With an emphasis on working closely with the end user community, this role will also contribute to the support and maintenance of existing business applications and related systems. This role requires a solid understanding of administering a MS SQL Database infrastructure.

This is a key role for the Authority and the post-holder will be responsible for but not limited to:

- Working with an agile team to develop, test, and maintain web and desktop-based business applications built on Microsoft technologies.
- Assisting in the collection and documentation of user's requirements, development of user stories, and estimates
- Preparing reports, manuals and other documentation on the status, operation and maintenance of software applications.
- Performing problem resolution and provides Tier-1 support for related computer/network systems through basic troubleshooting & maintenance assistance to ensure the ongoing availability of the Company's computing solutions.
- Acquiring a broader and advanced knowledge of state-of-the-art technologies (equipment, and/or systems); emphasizing those technologies used for regulatory reporting and financial services supervision

This position requires a proven technical and business background. Therefore, the post-holder must have:

- Bachelor's Degree (or equivalent) in computer science or a relevant discipline and certification in a relevant subject area i.e. MCSD, MCTS, MCPD, MCAD, MCSA.
- Minimum of two (2) years post-graduation (or equivalent) with exposure to Microsoft .NET development using C#, exposure to web development using HTML5, CSS and JavaScript.
- A solid understanding of object oriented programming concepts and relational database design and querying concepts.
- A demonstrated knowledge of client/server application development and agile development methodologies.
- Familiarity with version control concepts.

Bermuda Monetary Authority is the integrated regulator of the financial services sector in Bermuda. We offer the opportunity for broad exposure to international regulatory issues, special projects and a variety of work experience.

If you are looking for a challenging opportunity in a team environment, we invite you to submit your application online via our 'Careers at BMA' page at **www.bma.bm.** Applications for this position must be received no later than **27 May 2021**.

Bermuda Monetary Authority is an Equal Opportunity Employer.
