

## **Bermuda Information Technology Services (BITS) Ltd.**

Providing top-level IT consulting expertise to local and international companies, BITS Ltd. is currently inviting applications for the following position

### **Senior Systems Software Consultant**

To provide support to existing and new clients, applicants for this senior position must possess the following skills and qualifications:

- At least five years solid experience of the LANSAs systems development environment, focusing on LANSAs/Web, LANSAs/Windows and LANSAs Frameworks tools.
- At least ten years experience of providing solutions for the Insurance/Reinsurance industry.
- At least ten years experience providing bespoke IT solutions, including a minimum of five years experience of the IBM iSeries 400/System-i platform and its applications.
- A good working knowledge of RPG/3/4 or ILE based systems development environment.
- A good working knowledge of the LANSAs Integrator or Composer toolset.
- Demonstrable experience of:
  - Taxation systems, policies and practices.
  - DMV type licensing systems.
  - Advantage 2E (Synon) /Advantage Plex systems development environment.
- Proven ability to propose and implement effective solutions to a variety of business problems.
- Expertise in all stages of software development, from database design to final testing and implementation.
- A University degree (or equivalent) in Computer Science or a related discipline would be preferable, though a comprehensive & proven track-record in the field would compensate.

Additionally, the candidate must be service-oriented, self-motivated and able to work unsupervised, on their own initiative.

Project deadlines and client demands often require working evenings, weekends and public holidays.

Excellent written and oral communication skills are essential, as is the poise and maturity to communicate effectively at all levels.
