Infrastructure Engineer

Our client, Fortitude Reinsurance Company Limited, invites applications for the position of Infrastructure Engineer. Fortitude Re, is a Class E and Class 4 licensed Bermuda liability-led reinsurer of legacy insurance portfolios complemented by sophisticated investment capabilities. In 2020 Fortitude Re completed a separation from our previous parent company and became an immediate world top 10 reinsurance company. We were born in the cloud and continue to utilize best in class services and solutions to service our business partners. Fortitude Re is backed by a solid group of investors and continue to develop new business interests across the globe. Led by a dynamic team of senior leaders that come from a wide but strong insurance background, Fortitude Re is setup for growth over the coming years.

Reporting to the IT Infrastructure Lead, the Infrastructure Engineer is responsible for engineering the solutions required by our business partners to be successful. You will be involved in the day to day deployment, maintenance and support of infrastructure using Amazon Web Services ("AWS") and Terraform. At Fortitude Re we are using AWS for everything from end user compute to our Business Intelligence reporting platform you'll have the opportunity to experience a number of different AWS technologies when you join us.

Key responsibilities for this role include:

- Develop and deploy infrastructure solutions for a wide variety of projects
- Provide guidance to development teams on best practices
- Provide engineering support for our Service Desks
- Help maintain operational excellence across the environment

The right candidate will meet the below:

Key Technical Requirements:

- At least 2 years of hands on experience with AWS Administration
- At least 2 years of hands on experience with Terraform in an enterprise environment
- Working knowledge of Linux and Windows infrastructure design and support
- General understanding of core network design/implementation
- Ability to read/write Python and PowerShell for use in production environments

Base Skill Requirements

- Ability to multi-task, prioritize, and manage time effectively
- Strong analytical and communication skills, including the ability to develop and present clear and concise analysis and recommendations

Base Skill Requirements:

- Experience with basic CI/CD deployment practices
- Previous experience in insurance or highly regulated industry a plus (PCI/HIPPA)

It has been and will continue to be the policy of Fortitude Group Holdings, LLC, its subsidiaries and affiliates to be an Equal Opportunity Employer. We provide equal opportunity to all qualified individuals regardless of race, color, religion, age, gender, gender expression, national origin, veteran status, disability, or any other legally protected categories.

At Fortitude Re, we believe that diversity and inclusion are critical to our future and our mission - creating a foundation for a creative workplace that leads to innovation, growth, and profitability. Through a wide variety of programs and initiatives, we invest in each employee, seeking to ensure that our people are not only respected as individuals, but also truly valued for their unique perspectives.

To apply please send your résumé to jobs@expertisegroup.com. All applications are handled in a confidential manner and in accordance with Expertise's Privacy policy, available on our website.
