

Underwriting Analyst

Founded in 2007, JRG Reinsurance Company Ltd. is the Bermuda based reinsurance company subsidiary of James River Group Holdings Ltd.

JRG Re is focused on underwriting specialty property and casualty reinsurance for US based insurance companies with defined competitive advantages. The portfolio is heavily weighted toward short to intermediate tail casualty lines. JRG Re targets both working layer excess of loss and proportional treaty reinsurance.

Job Summary:

As an Underwriting Analyst, you will act as a critical support of the underwriting and actuarial functions of the casualty reinsurance segment. This position will be guided by strong mentorship and overall development as a reinsurance professional from expert reinsurance leadership in underwriting and actuarial.

Duties and Responsibilities

- Continuously exhibit and uphold Core Values of Integrity, Accountability, Communication and Teamwork, Innovation and Customer Service
- Enter data in and report out of the underwriting management system
- Accountable for the accuracy of the data input into and reported out of the underwriting management system
- Partner with underwriters to maintain email and share file documentation
- Provide underwriting analysis for pricing and risk assessment selections including financial, business and trend analysis of critical data
- Gather and prepare analyses based on information from internal and external sources
- Develop and prepare reports and assist in the management of the treaty reinsurance portfolio
- Participate in the preparation of documentation related to BMA and rating agency filings
- Understand and improve actuarial models in spreadsheet format
- Research functional issues using a variety of resources
- Participate in cross-functional teams to develop new and enhanced systems, database reports, processes, programs, and policies to support business needs
- Meet and correspond with clients, brokers, and prospects
- Travel as necessary to industry and educational conferences
- Perform other duties as assigned by management

Knowledge, Skills and Abilities

- Knowledge of Property and Casualty reinsurance underwriting
- Strong analytical, organizational, and timekeeping skills and excellent attention to detail
- Excellent interpersonal and communication skills
- Ability to exercise sound judgement in making critical decisions
- Proficiency in MS Office (Word, Excel, Outlook)
- Ability to build effective relationships with business partners
- Ability to identify and implement process improvements
- Ability to perform effectively as part of a team
- Ability to travel as necessary

Experience and Education

- Bachelor's degree in related field required
- Minimum of two years of underwriting or actuarial experience in the (re)insurance industry required

How to Apply

- Please submit your CV to resume@jrgre.bm

Closing Date: Monday, November 8, 2021

First preferences will be given to Bermudians and spouses of Bermudians. No agencies, please.
