

PROGRESS. PASSION. POSSIBILITIES.

At KPMG our goal is to be the Clear Choice for our Clients, our People and our Community.

KPMG professionals are individuals who take deep, personal accountability for their work; have a passion for excellence; remain driven to achieve their full potential; and understand the value of building relationships with clients, future clients, their communities, the global firm and each other. A KPMG professional has a strong work ethic, thrives on challenges, and is dedicated to providing outstanding client services.

Senior, Assistant Manager & Manager

KPMG Advisory is looking for an Senior, Assistant Manager and Manager with experience and proven track record in actuarial consulting for the Non-Life / P&C (re)insurance industry, including, but not limited to, experience in managing a diverse portfolio of engagements and working with multi-disciplinary teams. This is a challenging position where you will scope and define appropriate analytical tests to achieve client objectives. You will be responsible for interpreting client generated analytical results and preparing client reports. Responsibilities also include, but are not limited to:

- Providing high quality actuarial advisory service to clients;
- Building and maintaining strong relationships with new and existing clients;
- Providing analytical support and technical guidance;
- Participation in the completion and auditing of loss reserve studies for reinsurance companies domiciled on the island;
- Participation in development of new business through marketing and sales activities;
- Performance of loss reserve studies for captive insurers;
- Participation in pricing, risk transfer and internal audit projects;
- Conducting reinsurance pricing and special actuarial projects; and
- Supporting the audit department on client projects as needed;

Candidates must have the following qualifications, skills and attributes:

- A minimum of 2 (Senior), 3 (Assistant Manager) and 4 (Manager) years of Actuarial experience within the Non-Life / P&C (re)insurance industry;
- A Bachelor's degree in Actuarial Science or other suitable numerate discipline (mathematics, economics, science, etc.);
- Strong P&C reserving abilities and willingness to work in other areas of P&C insurance;
- Excellent technical and analytical skills;
- Must be an accredited Associate Actuary from a recognized professional body i.e. have completed a minimum of 7 Casualty Actuarial Society (CAS) or a minimum of 12 of the Institute & Faculty of Actuaries, UK (IFoA) exams (or from any other recognized, equivalent actuarial professional body);
- The ability to effectively work on concurrent engagements;
- Flexibility and an enjoyment of working on challenging projects, and interacting with teams;
- Ability to work overtime as required by the business to meet tight deadlines;
- A willingness and ability to travel at short notice if required; and
- Must be a mature, self-motivated individual who is well organized, hard-working, enthusiastic and professional
