

Risk Analyst

The Company:

Sompo International Holdings Ltd. (Sompo International) is a specialty provider of property and casualty insurance and reinsurance, established in March 2017 as the result of the acquisition of Endurance Specialty Holdings Ltd. by Sompo Holdings Ltd. (Sompo).

Sompo's core business encompasses one of the largest property and casualty insurance groups in the Japanese domestic market. In addition, Sompo is engaged in the provision of insurance services as well as other related services through its global network of businesses operating in 32 countries around the world.

Sompo International is the international operation and a wholly owned subsidiary of Sompo, which trades on the Tokyo Stock Exchange. Through our operating subsidiaries, Sompo International underwrites agriculture, professional lines, property, marine and energy, and casualty and other specialty lines of insurance and catastrophe, property, casualty, professional lines, weather risk and specialty lines of reinsurance.

As a leading global provider of insurance and reinsurance, we recognize that our success is derived directly from those who matter most: our people. Sompo International's headquarters is in Bermuda and we currently have offices in the United States, the United Kingdom, Continental Europe, and Asia. At Sompo International, a shared commitment to integrity, teamwork, agility, execution, and excellence define our culture, and we strive to create exceptional value for our clients and shareholders and maintain Sompo International as a desirable place to work.

Reporting to the Senior Vice President, Property D&F Practice Leader, the Risk Analyst will join Property Catastrophe Insurance team. This role is an excellent opportunity for an individual with strong modelling ability to join a world class team of professionals.

Duties and Responsibilities:

- Performs data quality check of client exposures
- Inputs client contract exposure into appropriate models and computes loss statistics
- Organizes and summarizes data into licensed and proprietary models
- Reviews and compares output to prior year's and communicates relevant points to underwriters
- Organizes and analyses the Company's various portfolios of insurance risks – this will include taking responsibility for data integrity, as well as the performance and creation of various analyses
- Assists in the production of portfolio statistics and provides risk management support
- Performs routine file maintenance so as to keep all records current and organized
- Modeling of individual Direct & Facultative property insurance accounts – including developing an in-depth knowledge of the models and techniques involved in this process
- Assists in the development of tools to improve department efficiency
- Assists other platform modeling departments when necessary

Required Skills / Qualifications:

- A relevant bachelor's degree (degree in Mathematics, Engineering or similar considered a plus)
- 2 years relevant industry experience with familiarity with commercial catastrophe models and experience with RMS RiskLink is essential
- Strong analytical, organizational and communication skills critical, along with a strong work ethic and interpersonal skills
- Database management skills including experience with SQL and Access databases a plus.
- Team player
- Ability to work extended hours when necessary to meet deadlines.

Sompo International offers a competitive compensation and benefits package commensurate with experience.
