

Sun Life International is one of the world's leading and most diverse financial services organizations, with an excellent reputation for customer focus and innovation in all of its markets. The Bermuda International operation was established in 1995 to offer life insurance annuity products to global high net worth individuals outside of North America.

The Chief Information Officer is accountable for the overall strategy, planning and execution of the Information Technology function for Sun Life International. This individual will also provide support and oversight for Sun Life Singapore and establish the direction, control and performance of IT function including IT Infrastructure, Resource Planning, Architecture, Project Management and delivery, Quality Assurance, and Information Security. Primary responsibilities will include: Collaboration to implement IT strategies and operational plans; Implementing and monitoring IT governance structures; Setting and managing the IT budget; Providing cost effective IT solutions; Implementing digital plans to optimize and automate business processes; Developing proposals; Managing out-sourced partner relationships and negotiating new external IT contracts; Effectively delivering IT components of business projects; Contributing and executing on regional and corporate objectives; IT risk management; Professional IT-related development of team members; Representing IT at country leadership level and involvement in IT and Digital management bodies as required; Nurturing stakeholder relationships within Sun Life International and leveraging mutually beneficial programs/processes; Developing and maintaining a sound plan of organisation; and Establishing policies to ensure adequate management development and capable management. ***For a full description of the role, please email [hr@psolutions.bm](mailto:hr@psolutions.bm) or call 441-232-5270.***

#### **Experience & Qualification Requirements:**

- Bachelor's Degree in Computer Science, Engineering, or a related field or equivalent experience. A Master's degree in Computer Science, or related field is highly desirable.
- A minimum of 15 years of related working experience, with at least 10 years' experience in multi-national, geographically diverse IT companies with increasing responsibilities in directing Information Technology areas. Experience in life insurance business is a plus.
- Experience in strategic planning and execution with strong knowledge of contracting, negotiating, change management, and vendor management.
- Experience with implementation of information technology integrations in a large division/company.
- Demonstrated ability to network and leverage different centers of excellence and shared service organizations within the larger organization and Asia in particular.
- Knowledge of and experience with Information technology computing systems including Architecture application development and mature software development life cycle.
- Experience in operational delivery including data center, support in infrastructure, change management, and problem incident management.
- Experience with IT governance and risk management disciplines.
- Familiarity with Agile, Design Thinking methodologies and techniques and understanding of Digital Transformation enablers including Cloud, Artificial Intelligence, Data & Analytics, etc.
- Leadership skills in managing different stakeholders at the professional and C-Suite level to produce high quality services and deliverables to meet business direction and strategic growth.
- Project Management Skills with experience running IT Project management, PMO, Business Analysis, and QA; Priority Management skills, Crisis Management skills, and Business Process Continuity Skills
- Superior collaboration, communication, and interpersonal skills, with proven ability to work with and influence all levels of management and staff in a matrix environment.

If you have the skills and experience to fulfill this role, please forward a detailed resume in confidence no later than **December 17, 2021**, to: **Performance Solutions Limited**, Suite 350, 11 Bermudiana Road, Pembroke, HM08 Bermuda.
