

Gnosis Limited

We're looking for a Senior Systems Engineer

Reporting to the Chief Operating Officer, you will be responsible for designing, implementing and maintaining IT Solutions in small to enterprise size solutions to our client base.

Your responsibilities will include, but not be limited to the following:

- Work with the senior management team to deliver the IT infrastructure projects in line with roadmaps and standards
- Work with 3rd parties, suppliers and other engineers to deliver technology solutions to our clients that are on-time and on-budget.
- Ensure that documentation and architectural artifacts are created, updated and stored in the appropriate repository when implementing any new solutions and update the documentation as a result of impact on existing systems
- Must be able to work after hours and on weekends

As the successful candidate you must have:

- Over 15 years of experience in a similar role, with at least 5 years as Technical Lead
- Certifications in MCP, CMNO, CCNA, Fortinet, AWS CCP, CMSS and Azure certifications are mandatory.
- Experience with on premise to cloud migrations - Office 365 and Azure migrations
- Proven experience and strong working knowledge VMWare vSphere environments.
- Strong working understanding of VDI infrastructure including Citrix Virtual Desktops, VMWare Horizon, and Windows Virtual Desktops
- Strong Knowledge and experience in the following Microsoft Cloud services: Azure Backup, ARM templates, Azure SQL, Azure Automation, Log Analytics, Windows Virtual Desktops, Security Center, Intune, Azure AD, Azure Site Recovery, Azure DNS, Cost Management
- Experience with Networking in Azure, specifically the configuration and troubleshooting of virtual networks, routing tables, network security groups and VPN gateways
- Supporting and configuring VoIP Phones (3CX, Avaya)
- Experience with business continuity and disaster recovery

If you are an experienced Senior Systems Engineer with experience working on the requirements listed above, then please follow directions below.
