

The Bermuda Airport Authority (the “Authority”) is responsible for delivering a range of essential air navigation services at the L.F. Wade International Airport (LFWIA) including air traffic control, ground electronics, Bermuda weather and aeronautical information services. On behalf of the Government of Bermuda, the Authority also oversees the performance of Skyport and its 30-year concession to operate, maintain and redevelop the airport.

The Authority invites motivated and qualified applicants to join our team of dedicated professionals as a Meteorological Forecaster within the Bermuda Weather Service section:

As a Meteorological Forecaster, you will be responsible for monitoring the weather and producing forecasts, watches and warnings for aviation, marine, and the public interest in accordance with ICAO/ WMO and local standards.

Education, Experience and Skills:

- A recognized Bachelor of Science degree in Meteorology with one year of operational experience as a forecaster or, a recognized Bachelor of Science in Mathematics or Science with three years of forecasting experience in an operational environment. In lieu of a degree, applicants with ten years of forecasting experience in an operational meteorological forecasting environment may also be considered.
- Excellent communication skills (both oral and written) including the ability to present, speak to the public and deal with clients at all levels internal and external to the organization.
- A strong sense of loyalty, motivation, dedication and a high degree of commitment and interest/passion for weather.
- Ability to balance teamwork with the ability to work independently.
- A demonstrated ability to make rapid and effective decisions in reaction to changing weather patterns as well as the ability to react calmly and prioritize effectively during periods of high activity and workload.
- A level of comfort and professionalism when dealing with clients at all levels including the public, the media, police, and emergency services.
- The following will be considered as assets:
 - o Prior experience working with the Bermuda Weather Service.
 - o Being certified as having completed aeronautical forecaster training approved by the World Meteorological Organization/International Civil Aviation Organisation.
 - o Prior experience working with IBL’s Visual Weather meteorological software.
 - o Prior tropical and marine weather forecasting experience.

The Bermuda Weather Service is a 24/7 operation and applicants must be prepared to work 12-hour rotating shifts including nights, weekends, and public holidays.

Shortlisted applicants will go through a detailed security vetting process and must be able to obtain a Skyport Restricted Airside Pass.

To apply for either of these positions, please send your resume and cover letter to:
