

Stafford Surfaces Limited is looking for a **Floor Installation Mechanic** for Vinyl, Resilient and Solid Surfaces. Applicants must have the following:

- At least five years' experience and/or manufacturer training in the installation of all types of resilient, hard surface, poured epoxy or other equivalent floor coverings.
- A thorough and demonstrable knowledge of heat welded seam installation (a demonstration of proficiency will be required) and integral cove forming and high standard floor preparation.
- All applicants will be required to carry out planning and layout duties, installation and site / project coordination where required. Hours will be dictated by project requirements but will likely include weekends, evenings, and public holidays.
- All applicants must have the ability to communicate effectively with both site personnel and clients.
- All applicants must have, or agree to obtain, an Intermediate Truck license.
- Punctuality and the ability to work to strict deadlines whilst maintaining work quality is essential.
