Underwriter

Ascot Underwriting (Bermuda) Ltd. underwrites multi-class re/insurance solutions for a diverse range of clients, originating specialty risks across the globe, while responding with speed, capacity and innovative product solutions. One of the company's greatest strengths is having talented employees, who flourish within a collaborative, inclusive and entrepreneurial culture; steeped in underwriting excellence, integrity and a passion to find a better way. We are currently inviting applications for the role of:

Underwriter

Key Duties & Responsibilities include but are not limited to:

- Conduct underwriting activities including analyzing exposures, coverages and contract language, and evaluating submissions
- Build and maintain proprietary models relating to Risk, Excess of Loss and Retro for Catastrophe, Marine, Specialty, and other relevant segments
- Negotiate, price, and execute deals
- Support business development, and build relationships with clients and brokers
- Work closely with senior management on underwriting matters and participate in developing underwriting strategy
- Perform analytical work on large data sets
- Maintain the company's underwriting systems, guidelines and procedures
- Manage, motivate and train junior underwriting staff
- Other duties as required, including assisting with relevant business-wide projects to effectively manage exposure

Minimum Qualifications, Skills and Experience Required:

- Bachelor's degree in mathematics, finance, economics or business administration, or a relevant insurance certification, such as ARE, ARM or CPCU
- Professional certification in Catastrophe Risk Management Modelling, such as CEEM, CSCR or CCRMP
- In-depth Property underwriting capabilities and technical insight in Cat Retro, Cat XOL, Risk XOL, and Risk Retro is required. Additional experience in Risk and Retro for Marine and Specialty lines is preferred.
- Significant experience and a demonstratable high level of technical capability in building out models with developing applications using VBA, Power Query, Power Query M, Power Pivot, Power BI and DAX, JSON/XML, SQL, and Excel add ins
- Deep knowledge of relational databases and strong reporting proficiency, with the ability to graphically represent data using web application programming interface (APIs) under tight deadlines
- Excellent written and verbal communication skills, along with a solid commercial awareness and strong organization, negotiation and presentation skills
- Ability to work flexible hours to meet business demands and deadlines including evenings, weekends and public holidays

To apply please send your résumé to jobs@expertisegroup.com. All applications are handled in a confidential manner and in accordance with Expertise's Privacy policy, available on our website.

Closing Date: February 03, 2022
