Lead Analyst, Analytics and Research

Our client, Hiscox Limited & Subsidiaries, is seeking a highly experienced and motivated individual to join their Analytics & Research team. The successful candidate will add technical strength and experience to the team, contributing to the pricing of bespoke and complex reinsurance products. The individual will be highly competent in the use of RMS and AIR catastrophe models, with commanding knowledge of their strengths and weaknesses. Ability to contribute to financial analysis and optimization studies using range of statistical methods and tools is also a pre-requisite.

Specific Responsibilities will Include:

- Technical pricing of new and renewal business
- Use of DFA tools to analyze bespoke financial structures and the impact of reinsurance protection on the portfolio
- Keeping abreast of capital modeling and regulatory requirements
- Directing portfolio analysis using RMS, AIR and Hiscox's own internal software
- Assisting with the development of analytical and underwriting tools and reports
- Conducting project work to investigate catastrophe model performance and functioning
- Carrying out primary research into specific natural perils

Minimum Qualification, Skills & Experience:

- University degree in mathematics, science or related numerate discipline
- Minimum of 8 years extensive experience in a technical reinsurance role, with strong commercial awareness
- Accomplished understanding of catastrophe models, their strengths, weakness and using their outputs
- Strong practical knowledge of statistical distributions, curve fitting and associated assumptions
- Understanding of DFA techniques and experience of statistical simulation methods
- Strong market knowledge, especially of the property catastrophe lines of business
- Strong programming skills such as SQL and R; Experience with software development projects would be advantageous
- Strong communication skills and the ability to present complicated ideas clearly and concisely with the use of visual analytics tools
