OBMI is a global/local master planning, architecture, interiors, and landscape design firm with an experienced team of professionals who are passionate about creating timeless spaces that transform the dreams of our clients into reality. Architectural, interior and landscape design is in our DNA, but we are more than our day job. We are imagineers, travelers, sculptors, photographers and mountain climbers, and our work inside the office reflects our adventurous, creative approach to life outside of it. For more than 85 years in Bermuda and abroad, clients have embraced OBMI as trusted advisors due to our tireless dedication to them and our commitment to exceptional, beautiful design.

Architect: RIBA or AIA or Equivalent, min 5 years' post registration experience. As a Sr. Architect, you will be leading the management of all phases of the project management process, including, design, construction, occupancy, quality control, staffing & budget management. As a project leader, you will demonstrate an understanding of the practicalities, technical aspects and management processes of the design & construction industry based on AIA guidelines. As part of this key role, you will also develop marketing leads and strategies with the local team in coordination with OBMI's overseas offices. You will also be working directly with the Senior Leadership of the firm to promote the values of company to grow our existing book of business to create a long-term career.

Interior Designer: FIDER accredited Degree, NCIDQ preferred, Member BIDA, ARIDO, ASID, min 3 years post registration experience.

As an Interior Designer, you will be required to manage ID projects from design inception to construction coordination. The position requires flexibility and focus to manage various projects of differing scales and budgets. As part of this key role, you will also develop marketing leads and strategies with the local team in coordination with OBMI's overseas offices. You will also be working directly with the Senior Leadership of the firm to promote the values of company to grow our existing book of business to create a long-term career.

Architectural Technologist: Accredited Degree in Architecture, Architectural Technology, Building Studies. Min 3 years post-graduation experience.

As Architectural Technologist, you will be required to have a sound knowledge of building technologies, Codes and Assessable Design. As part of a multifaceted team, you will be required to adjust to the task at hand and execute as efficiently as possible. As part of this role, you will also be encouraged to develop marketing leads and strategies with the local team in coordination with OBMI's overseas offices. You will also be working directly with the Senior Leadership of the firm to promote the values of company to grow our existing book of business to create a long-term career
