Our client, invites applications for the position of: Financial Controller (Life Reinsurance sector)

Our client is a dynamic, Bermuda annuity and life reinsurance solution provider, backed by a leading NYSE listed alternative asset manager, with approximately \$240bn of assets under management, providing capital solutions, asset management and corporate development services to support the business. The Financial Controller will report to the Chief Financial Officer ("CFO") and have responsibility for a wide range of financial and management reporting requirements. They will be highly motivated and energetic, serve as an accounting expert and senior technical resource. The Financial Controller will have frequent interaction with the CFO, actuaries, investment managers, clients and the corporate parent.

The scope of the role will include responsibility for: reinsurance contract accounting and investments; GL management; monthly & quarterly reporting for the CFO and Board of Directors; monthly, quarterly and annual financial reporting and analysis of US GAAP financial statements and BMA statutory filings; managing the assessment and reporting of capital and solvency returns; creating and maintaining tools to optimize information and data management; supporting with treasury, FP&A and capital management; internal and external auditor support; providing extensive project support on reinsurance, regulatory, legal entity and transaction analysis.

Candidate Profile

- Internationally recognized accounting designation, e.g. CPA, ACA, ACCA;
- Circa 5 - 10 years post-qualified accounting experience within the (re) insurance industry or accountancy firm or consultancy; with a mix of accounting, auditing and regulatory;
- Knowledge of the accounting for life insurance and annuity products would be preferred, although candidates from P&C re/insurance backgrounds, will also be actively considered;

- Firm grasp of US GAAP, regulatory rules and regulations (ideally BMA); knowledge of Bermuda Class E long term regulatory reporting; including BSCR and FCR or equivalent regimes, preferred;
- Superior experience analyzing and reconciling financial data;
- Excellent communication, organizational, and presentation, skills;
- Self-starter possessing a high degree of personal and professional leadership;
- Track record of building relations with our client's senior management and provide direct support to their business; and
- Embraces organizational agility and driver operational changes to support client needs and internal reporting and controls.

This is an excellent career opportunity with potential to develop and grow within the company.
