

REGISTERED DIETITIAN NUTRITIONIST

Northshore Medical and Aesthetics Center requires a Registered Dietitian Nutritionist (RDN) to provide nutrition consultation and education for patients and their families who are screened at nutrition risk, identified with nutrition risk, chronic disease management, management of nutrition support, to meet regulatory requirements, or for prevention and wellness.

The Registered Dietitian Nutritionist will be an integral part of the multidisciplinary team who serves as the patient's nutrition advocate, works independently and performs business and supervisory functions, such as management of resources in a cost-effective manner, and participates in compliance and quality performance improvement efforts to ensure nutrition care is safe and effective and oversees the experiences for dietetic interns. He/She will be an integral part of the multidisciplinary team and will also be involved in the education of physicians, and other health professionals as requested via lectures and in-service opportunities and team conferences and contributes to the development and revision of organizational policies and guidelines. The Registered Dietitian Nutritionist must have the ability to counsel clients of all ages and problems, have experience in a variety of clinical techniques and medical field, and the ability to develop a health plan

The Registered Dietitian Nutritionist must have a bachelor's degree in exercise physiology, nursing, dietary or a related field. A minimum experience of five years in health promotion, wellness, or health education is required. Certifications as a Registered Dietitian from an accredited professional or institute are required. The Registered Dietitian Nutritionist must have excellent knowledge of health, nutrition, and fitness issues, knowledge of health-related diseases and remedial measures as well as excellent verbal and written communication skills and strong motivational and convincing power.
