- Communicate with prescribers
- Keep up to date on drug approvals, product recalls, and changes to medications' indications and warnings
- Assist in training Pharmacy Technicians in pharmacy managers absence
- All standard pharmacy duties
- Assessing patients in respect of non-compliance with lifestyle modifications and assisting patients in understanding the role of lifestyle change and its effect on medication therapy.
- Report results of patient assessments and recommendations to physicians.
- Advise and counsel patients regarding diabetes care and medication
- Assist with Diabetes Education Programmes, health screenings and blood tests
- Provide continuing medical education to health provider colleagues
- Staying current on relevant clinical trials and reporting results and patient recommendations to physicians
- Maintain patient data records.
- Educate health provider colleagues/Continuing education courses; new medicines
- Keeping Statistical records including data collection of patients and medicines
- Vaccine administration
- Meeting pharmaceutical representatives

Requirements:

- Bachelor's degree in Pharmacy, with a minimum of five (5) years post internship experience and a minimum of five (5) years retail pharmacy experience
- Current registration with Bermuda Pharmacy Council
- Recognized excellent leadership, interpersonal, organizational and communication skills.
- Demonstrated ability in teaching patients and Health Professionals how to manage diabetes using technology and the importance of understanding medications in the treatment of diabetes.
- Qualification in Diabetes Education or evidence of commitment to obtain same.
- Proven experience in assessing diabetes patients and recommending treatment .
- Proficient with Microsoft office suite and electronic record systems.
- Proficient with RX30 pharmacy management system.
- Able to work split shifts, extended hours and weekends when required.

Bermuda Diabetes Association is a registered charity working to reduce the prevalence of diabetes and improve the lives of people living with or at risk of diabetes in Bermuda.
