

A commercial property and casualty insurance, reinsurance and specialty lines underwriter.

The successful candidate will be reporting to the Chief Financial Officer and will be primarily responsible to manage the global financial planning and analysis function and support executive management in analyzing results, communicating results internally and externally, integrating acquired operations, manage the global planning process and projecting future results to drive performance.

Responsibilities Include:

- Develop and maintain group strategic planning and reporting processes and systems.
- Evaluate business initiatives for profitability.
- Provide reports and analysis to the strategic leadership and regional management.
- Develop and maintain forecast and other management reporting and decision-making models using relevant software applications.
- Review the evaluation of company, segment and product line performance versus plan and prior period.
- Develop and implement strategic models for business initiatives and decisions.
- Develop reporting packages as necessary to communicate company and segment results.
- Review and develop standard and ad-hoc management reports.
- Manage and review the global expense analysis.
- Coordinate necessary information to the Risk Modelling team for the company's economic capital model.
- Manage and participate in the execution of relevant finance projects as well as recommend and implement improvements.
- Assist in the testing and maintenance of new and existing financial reporting tools and systems.
- Coordinate the completion of the corporate, segment and departmental scorecards;
- Maintain financial controls and procedures in accordance with Sarbanes Oxley.

Education, Skills and Experience:

The successful applicant will have the minimum skills, qualification, and experience:

- Bachelor's or higher degree in Accounting or Finance together with an internationally recognized accounting designation (i.e. CA, CPA or equivalent).
- A minimum of ten (10) years of post-qualification experience in the (re)insurance industry together with relevant industry experience.
- Experience in the preparation or review of consolidated financial statements required.
- Detailed working knowledge and experience of U.S. GAAP / IFRS.
- Minimum of five (5) years of experience successfully monitoring, coaching and managing accounting staff to achieve timely results.
- Sophisticated and highly developed excel spreadsheet skills required.
- Strong work ethic, commitment to meet deadlines and ability to work overtime as required.
- Experience with Anaplan, OneStream, PowerBI, SunGL, and Wdesk would be an advantage.
