Actuarial Assistant Manager

As an Assistant Manager you will be responsible for leading small to mid-sized engagements. You passionately apply your knowledge and high-level understanding of market issues to provide actuarial services to a range of clients. This includes economic capital modelling, determination of loss reserves, risk management, audit support and other actuarial consulting engagements. As a key contributor to the Practice, you are enthusiastic to initiate and lead marketing efforts, and actively contribute to a wide range of client projects of a technical actuarial nature. Through your leadership the team is motivated to participate in business development activities to deliver excellent service to clients.

The standard requirements of this role include:

- A minimum of 4-6 years relevant actuarial experience in the insurance/reinsurance industry, preferably within consulting.
- Experience with SII, BMA and other regulatory regimes.
- Experience with IFRS and/or GAAP reporting, including new accounting standard changes.
- Experience with IFRS 17 and/or US GAAP LDTI implementation projects.

All candidates must have demonstrated skills in client service and project management relevant to the role. This position requires inclusive team contributors, who have the proven ability to interact with a wide diversity of people across our organization. Candidates must have the ability to work a flexible schedule as needed.

All applications should be submitted online at:
