Software Developer and Analyst

Securis Investment Partners LLP ("Securis") is a London-based Investment Manager and currently employs around 50 staff. The investment strategy is to invest exclusively in Insurance Linked Securities across both Life and Non-Life segments. Securis ILS Management Ltd, Bermuda ("Securis Bermuda") is a wholly owned subsidiary of Securis Investment Partners LLP and primarily operates to source, analyze and underwrite insurance, reinsurance and retrocession opportunities within the Bermudian and US markets.

The Software Developer and Analyst role combines analytics and programming skills for both transactional and project-based assignments from the Bermuda office.

Duties & Responsibilities:

This role combines analytics and programming skills for both transactional and project-based assignments. The incumbent is expected to model reinsurance, retro and ILW investment opportunities covering worldwide exposures across various renewal periods, which involves using stochastic models. A significant part of this role is dedicated to improving existing processes and involves working together with the IT and the Research team on projects.

Minimum Qualifications, Skills & Experience:

- Master's degree in a STEM subject
- 5 years' experience within reinsurance industry
- Highly proficient in Python, C# & Sql Server
- Knowledge of both RMS and AIR models (being familiar with other model vendors is a plus)
- Strong programming, statistical and mathematical knowledge
- Excellent communication and critical thinking skills, with the ability to work independently as well as in a team

To apply please send your résumé to jobs@expertisegroup.com. All applications are handled in a confidential manner and in accordance with Expertise's Privacy Policy, available on our website.
