

Now Hiring Game Changers!

Athene is a leading financial services company that issues, reinsures and acquires retirement savings products designed to help people retire better. We're looking for dynamic and proactive individuals to join our team of Game Changers.

Senior Actuarial Associate, Flow Reinsurance

As a core member of the Flow Reinsurance team, this position supports the management of existing client relationships as well as business development initiatives. The successful candidate will have a solid understanding of insurance liabilities as well as both quantitative and communication skills. The role provides a wide range of experience across all aspects of life and annuity reinsurance and has excellent career progression potential within an established and fast-moving company.

Responsibilities

- Support the rate setting process for both US and international third party cedants, including working with the client management lead and the Pricing team to develop rate recommendations;
- Maintain product and rate databases and own the production of market, competitor, and performance analysis to inform both internal and cedant discussions;
- Produce materials for management and committee updates;
- Research and analyze potential new markets, companies, and products for reinsurance opportunities;
- Work with primary deal leads to support new business efforts as required, including analyzing due diligence materials and liaising with the pricing team on the production of indicative quotes for new transactions;
- Produce product and transaction summaries, highlighting key actuarial, reporting, and operational agreements; and
- Assist with any other department projects as required.

Credentials, Experience and Other Requirements

- Bachelor's degree in mathematics, finance, actuarial science or other related business field;
- Substantial progress towards Associate of the Society of Actuaries designation (or equivalent) with a minimum of four years' experience in the life and annuities insurance industry;
- Knowledge of fixed rate and indexed annuities preferred;
- Excellent stakeholder management skills with prior experience of effectively communicating complex concepts to both technical and non-technical audiences;
- Proactive and adaptable with excellent attention to detail, ability to prioritize and manage multiple projects, and a desire for ongoing learning and development;
- Knowledge of SAS or other programming language preferred;
- Proficient in the use of Microsoft Office suite of applications; and
- Excellent oral and written English language skills.

Interested applicants should apply online via <https://www.athene.com/bermuda-careers>. All resumes will be treated in complete confidence. No telephone enquiries please.
