

Financial Accountant

On behalf of our client, Ascot Underwriting (Bermuda) Limited (rated "A" Excellent by AM Best) underwrites multi-class re/insurance solutions for a diverse range of clients and is currently seeking applications for a Financial Accountant to support Ascot's growth and strategic initiatives as they continue to develop.

The successful candidate will have the ability to manage multiple data sources, understand financial trends, create clear reporting views and communicate outputs and drivers effectively. Attention to detail and the ability to take ownership for source systems and workflows used in financial reporting are essential. They will assist with the preparation of group consolidations, financial statements and day to day financial reporting requirements.

Responsibilities:

- Preparation of U.S. GAAP financial statements
- Board and management reporting, including financial analysis
- Planning, coordinating and assisting the financial close
- Development and build-out of core financial reporting systems
- Regulatory reporting, including BMA filings and requests
- Consolidation accounting including the preparation and maintenance of supporting schedules
- Ensuring compliance with accounting policies, develop and maintain process improvements
- Support and maintain the design, implementation and operating effectiveness of internal controls
- Liaising with and providing support to external auditors
- Coordinate with finance and IT on various finance systems and project work
- Ad-hoc projects and other duties as required by management

Qualifications and Characteristics:

- A bachelor's degree and CA/CPA or equivalent designation is required
- 5+ years of P&C re/insurance experience and US GAAP accounting experience is required
- Big 4 audit background is preferred
- Excellent communication skills, both written and verbal
- Able to complete tasks within tight deadlines, with often minimal guidance
- Effective problem-solver
- Advanced Excel skills
- Strong sense of urgency, is able to multitask, and is highly detail oriented
- Finance systems and planning tool experience (SUN/ InforQ&A/Phinsys/Workiva/Power BI)
