VP, Catastrophe Modeler

Who We Are

SiriusPoint is a global (re)insurer writing a worldwide portfolio of businesses including Accident & Health, Liability, Property and Specialty.

Bermuda-headquartered and listed on the New York Stock Exchange (NYSE: SPNT), we are looking at ways to grow intelligently, underwrite profitably, and drive technology innovation in the insurance industry.

We challenge convention, disrupt the traditional way of doing things, and devise new and better solutions. We strive to be excellent in everything we do, and to continuously build knowledge and learn beyond our current skillsets.

Join Our Team

You will be an integral member of the property catastrophe team, as our **VP, Catastrophe Modeler**. An experienced professional, you will be responsible for performing complex analyses, modeling portfolios and delivering insights to the team as well as working closely with brokers and others to gather and assess clients' exposure data. Your strong technical skills will be extremely valuable as you perform account modeling through support databases and systems with responsibility for analysis and reporting of modeling information. Reporting to our SVP, Head of Catastrophe, you will interact with brokers and clients and attend various meetings.

Your responsibilities will include:

- Managing data for input into third party catastrophe models and pricing tools to ensure corporate modeling guidelines and best industry practices are followed.
- Ensuring highest data quality standards are met by working with brokers, clients and colleagues to understand and analyze exposures.
- Evaluating data output to ensure timely and accurate results are produced.
- Communicating with colleagues on status updates throughout the modeling process.
- Preparing and delivering reports on risk measures and comparative analyses.
- Maintaining portfolio accuracy, including reporting, analysis of risks, marginal impact analysis, and communication with senior underwriters.
- Staying current with third party software updates/model changes and products to offer recommendations to senior management.
- Considering ways to improve overall efficiency and accuracy of the modeling process.
- Acting as the primary contact for catastrophe management activities.
- Assisting the global team to establish regular and ad-hoc risk reporting, Bermuda Solvency Capital Requirements (BSCR) calculations and risk control.
- Participating in special projects and research, as required.
- Attending appropriate industry conferences.

Be Yourself

We are building a differentiated culture and approach. We have shared values that drive our behavior and a culture that makes it a fun, exciting, and productive place to work and a great partner to do business with. You should be entrepreneurial, pioneering, open, and yourself.

Your qualifications, skills and experience must include:

- Bachelor's degree (or equivalent).
- Minimum of 12 years' experience in the reinsurance industry with focus on modeling and portfolio management.
- Demonstrated mastery of the use of AIR and RMS property catastrophe risk management toolsets with the ability to learn analytical concepts quickly.
- BSCR knowledge / experience.
- Robust data management skills with the ability to manipulate, interpret and extrapolate complex data and extensive knowledge of exposure data formats and tools.
- Strong analytical, problem-solving skills and meticulous attention to detail with financial aptitude.
- Excellent software development and database management skills.
- Understanding of modern portfolio theory and marginal pricing practices.
- Excellent written, verbal and presentation skills as well as strong interpersonal skills.

We Achieve More Together

We value and support the unique voices, backgrounds, lifestyles, and contributions of a diverse global employee base that contributes to our culture every day. Diversity, Equity, Inclusion, and Belonging (DEI&B) is imperative to our success.

We are building an environment that imbeds DEI&B into everything we do and enables us to unlock critical drivers of equality, innovation, and success. We want everyone to be included, valued, respected, and supported to unleash their full potential.

To apply please send your résumé to jobs@expertisegroup.com. All applications are handled in a confidential manner and in accordance with Expertise's Privacy Policy, available on our website.
