

Chief Financial Officer

The BAC Group of Companies, Bermuda's leading supplier of indoor environmental systems, is seeking a seasoned financial professional to oversee the financial operations of the organization. As a member of the senior management team the CFO will actively participate in the company's overall management and the establishment of long range strategies, goals, plans and policies.

The key responsibility of this position is the provision of critical financial data to support the day to day operations and the planning and implementation of strategic initiatives.

Specifically, the CFO is responsible for:

- Providing leadership and direction to the accounting team in the preparation and analysis of financial reports. These reports will be across several companies whose activities include multiple business lines and in compliance with IFRS accounting standards.
- Oversight of the company's HR function and the Human Resources Manager.
- Oversight of the development and implementation of Information Technology functions and the IT Manager.
- Capital and liquidity management and the management of banking relationships.

We are seeking a team player with excellent analytical and problem solving skills who can communicate well with other members of senior management.

Critical qualities required are:

- A recognized accounting designation and working understanding of IFRS.
- The ability to make sound and timely decisions under pressure.
- A demonstrated excellent track record.
- Familiarity with the Bermuda business environment.
- Computer literacy.

Previous experience in a similar construction or service based business would be an asset.

This is a unique opportunity to become a key player in a well established and respected local business.
