

## Information Technology Manager

Marsh IAS Management Services (Bermuda) Ltd. invites applicants for this position.

The successful applicant will lead the Information Technology Department, managing the delivery of technology and business applications to Captive Management offices globally.

The responsibilities of this position include:

- . overseeing IT operations and services
- . managing staff, projects and budget to meet business requirements and deadlines
- . coordinating excellent communication with internal and external stakeholders

Applicants must possess excellent interpersonal, technical, analytical and communication skills. This individual is expected to keep their technical skills current, through training and active daily participation in all aspects of the department's work. They must be willing to travel and work overtime, when called for by project or client needs.

It is important that this individual understand business issues, including those specific to our industry. This facilitates communication with clients, prospects, auditors, vendors, management, end-users and internal staff, and ensures that systems and services meet our company's needs effectively and efficiently.

Equally important, the applicant must have proven skills to build and lead a team of professional staff, ensuring their productivity, effectiveness and skills growth.

The minimum qualifications for this position are:

- . Completed university education
- . 15 years experience as an IT professional;
- . 10 years experience within the insurance industry; and
- . at least 5 years experience supervising IT professionals;

In-depth knowledge and experience in the following areas:

- . Visual Studio .Net, SQL Server 200x, Lotus Notes, Windows 200x Server;
- . Business application development, on client-server and web-based platforms;
- . Accounting and Insurance systems, concepts and processes; and
- . End-user support processes.
