

THE ANSWER

Looking for a viable career opportunity? CCS has THE ANSWER. We are seeking a Senior Cisco Network Architect to join our team.

Senior Cisco Network Architect

The successful candidate must be a Senior Cisco Network Architect who is self-motivated, possesses a strong Cisco technical background, and must be able to translate complex business strategies into evolutionary technical strategies.

Responsibilities include:

- Design, install, manage and maintain Cisco based networks, Cisco routers, Switches, Gateways, Security Solutions, Wireless Solutions and Network Management Solutions
- Must be able to clearly communicate and advocate all proposed Cisco network architectures using Cisco best practices
- Create and maintain detailed project plans and scopes of work, conduct and facilitate project meetings, and maintain technical documentation of all assigned projects and tasks
- Assist in the development of disaster recovery plans, ensuring readiness of enterprise-wide network plans
- Assesses network service performance risks, develop technical roadmaps, and assists in developing contingency plans
- Facilitate and manage multiple projects, meet deadlines and deliverables, and provide cost savings solutions

Candidates Must Possess:

- A minimum of ten years experience as a senior network consultant
- Demonstrated ability of Project management including project design, project implementation, and project documentation
- Demonstrated experience installing, configuring and maintaining global networking and security solutions
- Demonstrated expert level of knowledge and skills in network design for complex global networks
- Must be highly organized, flexible, and must possess self-initiative
- Must be able to gather a customer's business requirements and objectives and translate them to produce a blueprint for an integrated, large-scale, complex, global network
- Must be able to allocate and coordinate resources required for any projects they lead.
- The following certifications are required:
 - Cisco Certified Network Associate (CCNA)
 - Cisco Certified Network Professional - Wireless (CCNP)
 - Cisco Certified Design Associate (CCDA)
- The following certifications are desired:
 - Cisco Certified Design Professional (CCDP)
 - Cisco Certified Design Expert (CCDE)
 - Cisco Certified Internetworking Expert (CCIE)
