For The Onionpatch Infant and Day Care Centre

Mission

Onionpatch Infant and Day Care Centre has adopted the philosophy that all areas of development (social, emotional, intellectual and physical) are equally important in the development of a healthy child. We believe that optimum learning and development occurs in children when they feel loved, safe and secure. Onionpatch Infant and Day Care Centre provides a supportive, predictable environment where children and parents can depend on the caregivers for attention, guidance and caring.

Why Choose Onionpatch Infant and Day Care Centre

We believe in developing the whole child. A good religious background is the foundation on which we base many of our inherent and learned behaviours - everything from treating others with kindness to motivating oneself to do better comes from the heart of Christian philosophy. We believe that this is a key component in the development of productive citizens.

Onionpatch Curriculum

Onionpatch Infant and Day Care Centre has chosen to use the faith based Pinnacle Curriculum, which is a research-based early childhood curriculum.

All aspects of developmentally appropriate instruction in the areas of music, bible focus, language, fine and gross motor skills, social and emotional development, art and outdoor play are engaged each day for all children of all abilities.
