## Senior Communications Engineer

Our client Telecom Bermuda, the Island's leading wireless telecommunications company, invites applications for the position of Senior Communications Engineer. Reporting to the Managing Director the successful candidate will work within the operations department to support the Company's extensive infrastructure and customer owned systems including two-way radio, paging, carrier grade wireless data and AVL systems. The applicant must be a self-motivated and energetic team player with good communication skills and work on-call, on a rotational basis.

### Minimum Qualifications, Skills & Experience:

- Electronics Diploma or undergraduate degree from an accredited university or college
- Minimum 5 years electronics/electrical related experience
- Minimum 2 years experience with Motorola two-way radio systems is required
- Minimum of 2 years tower climbing and rigging experience is required
- Minimum of 2 years project management experience
- Extensive experience with AVL/GPS tracking systems
- Extensive radio electronics knowledge including installation, use, troubleshooting and repair
- Extensive knowledge and experience with 120/208VAC and DC electrical systems, including diesel generator back-up systems
- Extensive knowledge and completion of Motorola R56 engineering procedures
- Experience maintaining Widanet/Paknet data network

Interested? Please email [jobs@expertise.bm](mailto:jobs@expertise.bm).

All enquires will be dealt with in strict confidence.

Closing date: July 15, 2011
