

PLUMBER

Air Care, representing a widely diversified group of products including Daikin, McQuay, True, Trane and Hill/Phoenix refrigeration is currently seeking a highly motivated Plumber.

The successful candidates should possess the following qualifications:

- Have a high degree of technical aptitude to permit understanding of treatment systems and to resolve challenges using OEM manuals and other support services as required
- Understand, interpret and follow engineer's plans and specifications
- To estimate work, prepare schedules and meet financial constraints
- Be a team player that can work productively in an unsupervised capacity
- To plan, layout work and complete installations on own or with others that are both functional and visually attractive
- A working knowledge of water treatment systems would be advantageous, while an understanding of commercial and industrial electrical systems would be desirable
- Have a clear written and effective oral communication
- Appropriately interact with clients to ensure that their needs are met.
- Willingness to train and develop the skills of apprentices
- Prepared to work evenings, weekends and public holidays as needed

An attractive salary and benefits package is offered and will commensurate with experience

Applications will be held in the strictest of confidence.

Closing Date: August 2, 2011

Persons should apply in writing enclosing fill details of qualifications and experience to:
