- Work closely in a small team environment with managers and partners on engagements
- Develop and maintain relationships with client personnel to obtain a better understanding of business operations, processes and functions
- Stay informed of current economic developments relevant to each client's business and industry
- Demonstrate professionalism

Job Requirements:

- Must possess either a CA, ACA, CPA or ACCA or other internationally recognized accounting qualification.
- Audit experience in financial services area a plus
- Familiarity with US GAAP, Canadian GAAP, and IFRS a plus
- Superior written and verbal communication skills
- Strong computer skills
- Willingness to be trained to work in a near-paperless environment
- Motivated and hard working in order to meet client deadlines and provide excellent client service
- Distinguished people skills, motivated by challenges and team work
- Strong analytical and report writing skills

Benefits:

- Extremely attractive compensation and all round package

Please send your resume and salary expectations in confidence to Michael.Newton@mazars.bm by November 10, 2011.
