

At the KeyTech Group of Companies we believe the key to future growth is expansion and diversification through our subsidiaries. We have always been the principal investor in Bermuda's communications infrastructure... **Unlocking a world of connections!**

## Vice President Network Services

**Logic Communications Ltd. ("Logic")** is Bermuda's premier full-service technology and communications provider. Serving residences, small local businesses and global enterprises, Logic offers market-leading international voice and data solutions and IT professional services. Logic is a member of the KeyTech Group of Companies.

Logic is seeking a highly motivated individual with a proven track record of delivering on revenue targets possessing strong leadership, coaching and communication skills for the position of **Vice President Network Services**.

Under the direction of the Chief Executive Officer, the Vice President Network Services will manage all engineering and operational aspects of Logic's network infrastructure to ensure the network is positioned to meet customer demand for current and future products and services. The successful candidate will be seasoned in management and design of network infrastructures, who can develop strategies that will enable Logic to deliver effectively on existing and future market demands.

Responsibilities will also include providing leadership and direction for Logic's Business Service Desk and developing and maintaining department operational and capital budgets. This critical position requires the candidate to promote a positive working environment, motivate and manage a High Performance Team.

**This successful candidate must possess an understanding and a strong working knowledge of:**

- Development of Networking technologies, specifically BGP/MP-BGP, MPLS, VPN, QoS and global MPLS VPNs that spans multiple Service Provider environments
- Implementation of Cisco based converged voice, video and data network
- Development and maintenance of Billing and Operational Support Systems and Customer Relationship Management Systems to create and sustain the working environment

### Qualifications and Experience required:

- Degree in Business Administration, Electronic or Electrical Engineering or equivalent with a minimum of ten (10) years experience in Network Operations in the technology industry, 5 of which include senior management experience
- Certifications in any two (2) or more of the following: MCSE, MCSA, CCNA, CCNP, CCIE, CISSP, ASE, CNE
- Senior Management experience in Customer Service, Operations, Network Operations and Engineering in a large scale service provider environment

Interested persons should apply with a cover letter and detailed resume via email to [keycareers@keytech.bm](mailto:keycareers@keytech.bm). All correspondence should be marked to the attention of the:
